## Summary

---

Computer Science undergraduate with strong frontend and full-stack development skills and hands-on experience building AI-powered web applications. Skilled in modern frameworks, authentication systems, and scalable application design with a focus on performance and user experience.

## Technical Skills

---

**Languages:** JavaScript, C, C++, MYSQL

**Frontend:** Next.js 14, React.js, Vite, Tailwind CSS, Shadcn/UI, HTML, CSS

**Backend / BaaS:** Node.js, Supabase, Strapi CMS, Express.js

**Databases:** MongoDB, MySQL

**AI & Tools:** Gemini API, Clerk Authentication, Git, GitHub, Axios, VS Code

## Projects

---

### CVANT AI – AI Resume Builder

[Live](#) — [GitHub](#)

*Next.js 14, Clerk, Gemini API, Tailwind CSS, Node.js, MongoDB*

- Developed an AI-powered resume builder that generates ATS-optimized resumes.
- Enabled resume creation from scratch using structured templates.
- Integrated Gemini API for resume summarization and content enhancement.
- Implemented secure authentication and user management using Clerk.
- Built scalable backend APIs for resume storage and retrieval.

### ATHENO AI – AI Study Companion

[Live](#) — [GitHub](#)

*React, Supabase, Gemini API, Tailwind CSS*

- Built an AI-powered study platform with personalized learning roadmaps and smart flash-cards.
- Implemented course management, task board, and Pomodoro focus timer.
- Used Supabase for authentication and persistent data storage.
- Integrated Gemini API to generate structured study plans and learning insights.

### Gym Management System

[Live](#) — [GitHub](#)

*React.js, Supabase, Tailwind CSS*

- Implemented member, trainer, and membership plan management.
- Added role-based authentication using Supabase Auth.
- Developed attendance tracking and fee status monitoring.
- Built an admin dashboard with real-time data updates.
- Designed a responsive and mobile-friendly UI using Tailwind CSS.

## Education

---

### Jamia Hamdard University, New Delhi

Bachelor of Computer Science

*Aug 2022 – Jun 2026*
